About Us

01752 265312

The new era of musical instrument retail brings different requirements from musicians. With the aim to bridge the gap between high-street music shops and online retail, we endeavor to give our customers a more hands-on feel when browsing and buying online. Our high quality product images and descriptions written by experienced users of the equipment are designed to help you make informed decisions about which music gear is right for you.

Sound Unlimited is run by a small team of musicians who collectively have over 25 years of experience in musical instrument retail. On top of this, we are professional musicians who have experienced a lot of time on stage and in the studio. As experienced musicians we know that it is essential for musicians of any age or ability to have decent and reliable music gear at good prices. We only sell products that we believe in.

We currently do not have a showroom however we have the facilities to arrange for customer collections and meetings. Our next step is to put together a demo facility to allow customers to come and properly try out equipment.
